

Figure 1: This figure shows the signal-over-noise ratio (SNR) of P and N clusters for the Large Rectangular Sensor. Only clusters associated to tracks have been selected, no selection on the tracks is applied. We have used data from Experiment 3 Run 783. The internal document reference is BELLE2-NOTE-TE-2018-005.

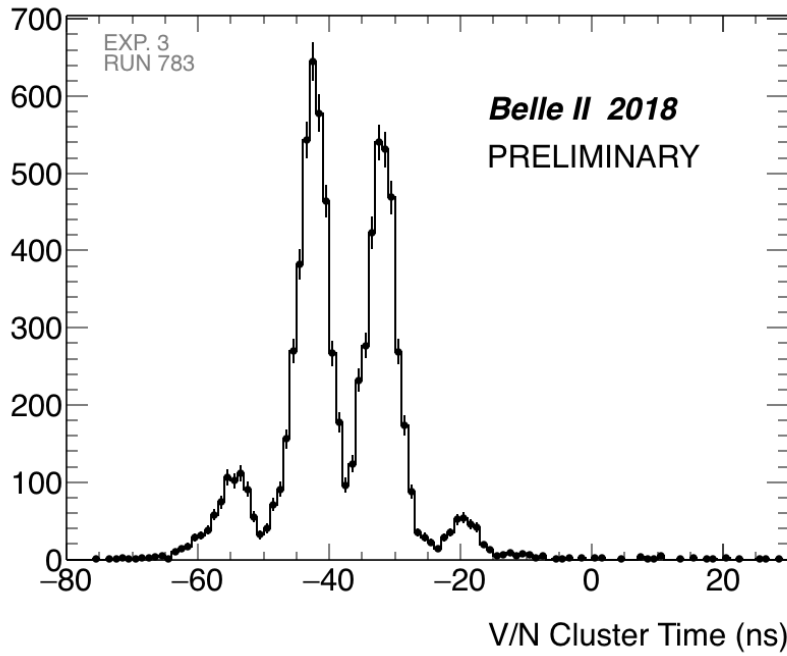

Figure 2: This figure shows the reconstructed time of the N-side clusters of the Large Rectangular Sensor. Only clusters associated to tracks have been selected, no selection on the tracks is applied. We have used data from Experiment 3 Run 783. The internal document reference is BELLE2-NOTE-TE-2018-005.
